

Matthew Shane Loop, PhD FAHA

Division of Pharmacotherapy and Experimental Therapeutics
UNC Eshelman School of Pharmacy
University of North Carolina at Chapel Hill
301 Pharmacy Lane
3208 Kerr Hall, CB#7569
Chapel Hill, NC 27599

Telephone: (919) 962-5339
Email: matthew_loop@unc.edu

Many scientific studies propose wonderful new hypotheses or novel techniques. However, many investigators struggle with how to quantify the uncertainty in their results or approach to unexpected complexities in their data. Therefore, I became a biostatistician in order to improve our quantification of Scientific knowledge, particularly concerning human disease, its causes, and potential therapies. I have worked on adult cardiovascular disease, HIV/AIDS, pediatric gastroenterology, malaria, and air pollution. I am now working on projects related to pregnancy and cardiovascular disease.

Education

PhD in Biostatistics, University of Alabama at Birmingham (UAB), May 2015

Advisor: Leslie A. McClure, PhD

M.S. in Biostatistics, UAB, May 2012

Advisor: Leslie A. McClure, PhD

B.S. Biology, University of Alabama, *cum laude*, May 2010

Positions

Assistant Professor, Division of Pharmacotherapy and Experimental Therapeutics, UNC Eshelman School of Pharmacy, University of North Carolina at Chapel Hill, August 2020 -

Assistant Professor, Department of Biostatistics, Gillings School of Global Public Health, University of North Carolina at Chapel Hill, September 2016 - July 2020

Postdoctoral Fellow, Department of Epidemiology, UAB Vascular Biology and Hypertension Program, UAB, April 2015 - August 2016

Peer-Reviewed Papers

* Indicates student I advised on the project.

26. Lemas DJ, **Loop MS**, Duong M, Schleffer AB, Collins C, Bowden JA, Du X, Patel KU, Ciesielski AL, Ridge Z, Wagner J, Subedi B, Delcher C (2020). Estimating drug consumption during a college sporting event from wastewater using liquid chromatography mass spectrometry. *Science of the Total Environment*. *In press*.

Current funding

Arterial stiffness and brain health in African Americans
R01AG062488, National Institute of Aging 2019-07-01 to 2023-04-30
Meyer (PI)

Role: Co-Investigator

This study is focused on the stiffening of the arteries and the associated structural damage to small vessels in the brain and reduced cognitive function that precede cognitive impairment and Alzheimer’s disease and related dementias. We propose to add a measure of artery stiffness to the 2020-2022 re-examination of the Jackson Heart Study; information on risk factors, damage to small vessels in the brain and cognitive performance will come from the existing study and as well as measures of artery stiffness in subset of participants that also participated in the 2011-2013 visit of the Atherosclerosis Risk in Communities-Neurocognitive study. This study will provide new information on how stiffening of the arteries relate to brain structure and function in African Americans that can inform efforts to reduce health disparities and to identify potential targets to lower the risk of cognitive impairment and Alzheimer’s disease and related dementias.

Optimizing Postpartum Cardiovascular Care in Women with Hypertensive Disorders of Pregnancy

Duke Clinical and Translational Science Institute 2019-07-01-2020-12-31

Daubert (Co-PI), Urrutia (Co-PI)

Role: Co-Investigator

Previous funding

Adolescent Medicine Trials Network for HIV/AIDS Interventions (ATN) Coordinating Center Supplement

1 U24 HD089880-01S1, E. K. Shriver National Institute of Child Health and Human Dev 2016-09-30 to present

LaVange (PI)

Role: Co-Investigator

The goal of this U24 application is to establish a Coordinating Center for the next phase of the Adolescent Medicine Trials Network for HIV/AIDS Interventions (ATN) sponsored by the NIH. The objective of ATN is to increase awareness among at-risk youth of their HIV status and, for those with HIV, achieve linkage, engagement and retention in the care continuum.

PeRiodontal Treatment to Eliminate Minority InEquality and Rural Disparities in Stroke 16-2910 POUSC01-2000, National Institute on Minority Health and Health Disparities 2015-07-01 to 2020-06-30

Sen (PI)

Role: PI of Data Coordinating Center

UNC will be a clinical site (Neurology and Dentistry), and provide entire project coordination (CSCC) for this phase III randomized controlled trial to test whether intensive periodontal treatment reduces the risk of recurrent vascular events amongst ischemic stroke and TIA survivors.

Atherosclerosis Risk in Communities (ARIC) Study - Coordinating Center

HHSN268201700001I, National Heart, Lung and Blood Institute 2016-11-15 to 2021-11-14 Couper (PI)

Role: Co-Investigator

The Atherosclerosis Risk in Communities Study (ARIC), sponsored by the NHLBI, is a prospective epidemiologic study conducted in four U.S. communities. ARIC is designed to investigate the etiology and natural history of atherosclerosis, the etiology of clinical atherosclerotic diseases, and variation in cardiovascular risk factors, medical care and disease by race, gender, location, and date.

VWF Biology and Disease Associations

Puget Sound Blood Center Research Institute 2015-06-01 to 2020-05-31

Dong (PI)

Role: Co-Investigator

The studies proposed in this application are designed to improve our understanding of the role in sickle cell disease of a large, sticky plasma protein called von Willebrand factor (VWF).

Epidemiologic Determinants of Cardiac Structure and Function Among Hispanics (ECHO-SOL2)

2 R56 HL104199-05, National Heart, Lung and Blood Institute 2015-09-14 to 2018-05-31

Rodriguez (PI)

Role: PI of Data Coordinating Center

The proposed research represents a novel approach to understanding how progression of HF risk factors (from pre-DM to DM, pre-HTN to HTN or from normal BMI to obesity) relate to changes in cardiac phenotypes and potentially to clinical HF.

Hispanic Community Health Study / Study of Latinos (HCHS/SOL): Coordinating Center HHSN268201300001I, National Heart, Lung and Blood Institute 2013-06-01 to 2019-05-31

Cai (PI)

Role: Co-Investigator

This is an application for the University of North Carolina at Chapel Hill (UNC) to serve as the coor-

minating center for the Hispanic Community Health Study (HCHS). The HCHS study objectives are to identify the prevalence of and risk factors for diseases, disorders, and conditions in Hispanic populations and to determine the role of acculturation and disparities in the prevalence and development of these conditions. The HCHS coordinating center will provide operational and scientific coordination for the field centers to ensure that the research objectives of the study are met.

**Predicting Response to Standard Pediatric Colitis Therapy: The PROTECT Study
1-U01 DK095745-01, National Institute of Diabetes and Digestive and Kidney Diseases
2012-07-01 to 2017-07-31**

Hyams (PI)

Role: Co-Investigator

We hypothesize that a combination of clinical, genetic, and immunologic tests performed at diagnosis may allow construction of a model for individualized treatment and thereby improvement of current Ulcerative Colitis outcomes.

Geographic Distribution of Hypertension in U.S. Adults Age 45 or Older. **Competitive fellowship**, funded by the American Heart Association. 2014 Predoctoral Fellowship. Period: 1/1/2014 - 3/31/2015.

Pre-doctoral Trainee, NHLBI T32HL079888, August 2012 - December 2013

UAB Graduate School Fellow, August 2011 - July 2012

Pre-doctoral Trainee, UAB Pre-doctoral Training Program in Obesity Related Research (1T32HL105349), December 2010 - July 2011

Student Trainee, Kraft Fellowship Program of the UAB Nutrition and Obesity Research Center, June 2010 - November 2010

Honors and awards

2018 Fellow of the American Heart Association

2018 Junior Faculty Development Award (\$10,000), UNC Chapel Hill

2015 Fellow, American Heart Association 10-Day Seminar on Epidemiology and Prevention of Cardiovascular Disease

2015 Career Enhancement Award, UAB Office of Postdoctoral Education

2015 Outstanding PhD Student of the Year Award, UAB School of Public Health

Professional Activities

Reviewed papers for: *JAMA Network Open* (statistical reviewer), *Journal of the American Heart Association*, *Obesity*, *PLoS ONE*, *American Journal of Public Health*, *American Journal of Clinical Nutrition*, *Neurology*, *Journal of Hospital Medicine*
